All

TLU are a utility contractor working on behalf of Airband. We have civil engineering work to carry out at the above location which unfortunately will require a full road closure in order to safely excavate. This is due to the width of the street, meaning once our site is set up there will be no space for even single file traffic. The purpose of our work is to lay new duct in carriageway .

I am advised by Devon County Council that in order to submit a road closure application we should first consult parties in the public and business domain potentially affected by our closure, including the Parish Council.

Therefore, this notification is to advise you that we intend to submit a road closure application from **25th of September until 29th of September** for the above.

I attach a map showing the section of the road what we will be closing. Please note that access will be maintained at all times for any residents.

Please do not hesitate to call on the number below, or reply to this email address, if you would like to highlight any concerns or queries relating to this closure. Do not feel any response is necessary if you have no concerns.

If no issues are highlighted, we will continue with this application.

Thank you

Cristina Guriteanu

Notice of Road Closure: Old Exeter Road, Tavistock PL19 0FG

Job reference number: A8001TLUWP1893TAVISTOCK

Start date of works: 25.09.2023-29.09.2023

Dear Sir/Madam,

TLU are a civil engineering contractor working on behalf of AIRBAND. We undertake underground duct work to allow for the maintenance, repair, and installation of the telephone network. We have a piece of civil engineering work that we have been asked to carry out at the above location. The purpose of this work is to repair existing telephone lines and equipment.

Because of the nature of the work and the narrow width of the road, it has been necessary to apply for a TEMPORARY TRAFFIC RESTRICTION ORDER (TTRO), and following the statutory three month notice period, we now have permission from **DEVON Highway to** begin work on **25th of September** a duration of **5 days**.

We can allow pedestrian access and of course access to any emergency vehicles. Residents' vehicles will also be able to access properties, but it should be noted where we are working at any given time, so that residents enter from the end of the closure not affected by the works.

We will make every effort to keep disruption to a minimum during this period and we thank you in advance for your patience and assistance. Should you have any issues or comments associated with our works we would be grateful if you would email **cristinag@tlucontracts.co.uk**. Urgent problems on the day may be resolved by telephoning us on **01823 661104**.

Yours faithfully,

The

Airband

Team
