<p>Baker Estates Ltd Land At Plymouth Road Tavistock</p> <p>P/A No. 0723/21/FUL</p>	<p>Hybrid application comprising full planning application for the erection of 44 residential dwellings, formation of access, associated public open space, landscaping and infrastructure; and outline planning application for 0.76ha of commercial land (use class E(g) - formerly B1 with all matters reserved, except means of access</p>	<p>Tavistock Town Council objects to application 21/0723 on the following grounds:</p> <p>1. The application does not accord with the terms of allocation TTV17 in the extant and adopted Joint Local Plan (JLP), which includes 18,600 square metres of employment. Tavistock Town Council (TTC) is not convinced by the arguments made to justify deviation from the JLP and is of the opinion that the Local Planning Authority must refuse planning permission.</p>	<p>Refusal</p>	<p>21st December 2021</p>

		<p>2. The current application includes 2,500 square metres of employment on a 0.76 ha parcel of land. Taken together with the previous application for the "Linden" site, the two applications together leave a shortfall of 7,000 square metres. The JLP is clear that the allocation of 18,600 square metres of employment is in order not only to meet current needs but also to provide for the town's future needs and resilience. TTC is acutely aware that parishioners are worried about the expansion of housing in the town without accompanying expansion of employment opportunities.</p> <p>3. Paragraph 5.91 of the JLP specifies that the land to the north of the lane</p>

		<p>that bisects the allocation, the current application site, is suited principally for new employment uses, predominantly Use Class B1 whereas the land to the south is suited for residential purposes. The allocation of land is clearly shown on the Proposals map. TTC has not seen any convincing explanations for why the allocations specified in the JLP are being ignored.</p> <p>4. TTC rejects the argument that the adjacent Linden site already satisfies the employment allocation. This site cannot deliver 18,600 square metres of employment on the 2.0 ha site allocated. WDBC has agreed that the maximum would be 8,500 square</p>

		<p>metres. TTC understands that a conflict exists between the planning permission that has been granted and the draft s.106 agreement that raise doubt as to whether any employment space can be delivered.</p> <p>5. TTC rejects the argument that the availability of employment space elsewhere in the JLP area justifies failure to deliver the full allocation in Tavistock. TTC and parishioners do not wish to see Tavistock become a dormitory town for people working elsewhere with the associated commuting and harm to the environment and social structure of the town.</p> <p>6. TTC deplores the absence of affordable homes within the application</p>

		<p>site or the payment towards off-site affordable homes. TTC notes the viability argument but remains unconvinced. The JLP expects that 30% of homes within developments should be affordable.</p> <p>7. TTC has previously criticised the absence of contributions to local public transport and to primary school education and remains of the same opinion.</p>
